PubMed & PubMed Central: Cited Reference Search

Cited References searching allows you to locate articles in which an article was cited.

Getting Started…

Note: If working off-campus, be sure to access PubMed through the UI Library website.

Searching Results

1. Click the title to display article detail.
2. Search for an author or a title

When there are more articles that have been cited by a PubMed Central article(s), Click See all…
The generated list includes a link to the originally cited article, followed by the number of citing articles within PubMed Central's Archive. Click on the article titles to view details.
