Scopus: Cited Reference Search

Cited References searching allows you to locate articles in which an article was cited.

Getting Started…

Note: If working off-campus, be sure to access Scopus through the UI Library website.

Searching Results

Click the Author search tap and enter the author’s name > Search

Navigating Search Results

Click the correct author’s name to view author detail.

Analyze Author Output

To view author’s h-Graph, charts on document details, and a graph of citation per year
This author's h-index is 29

The h-index is based upon the number of documents and number of citations.

Note: Scopus is in progress of updating pre-1996 cited references going back to 1970. The h-index might increase over time.
